

**ALL YOU NEED
FOR YOUR NIVEKO POOL...**

**CUSTOM-BUILT MONOPOOLS
PRODUCER**

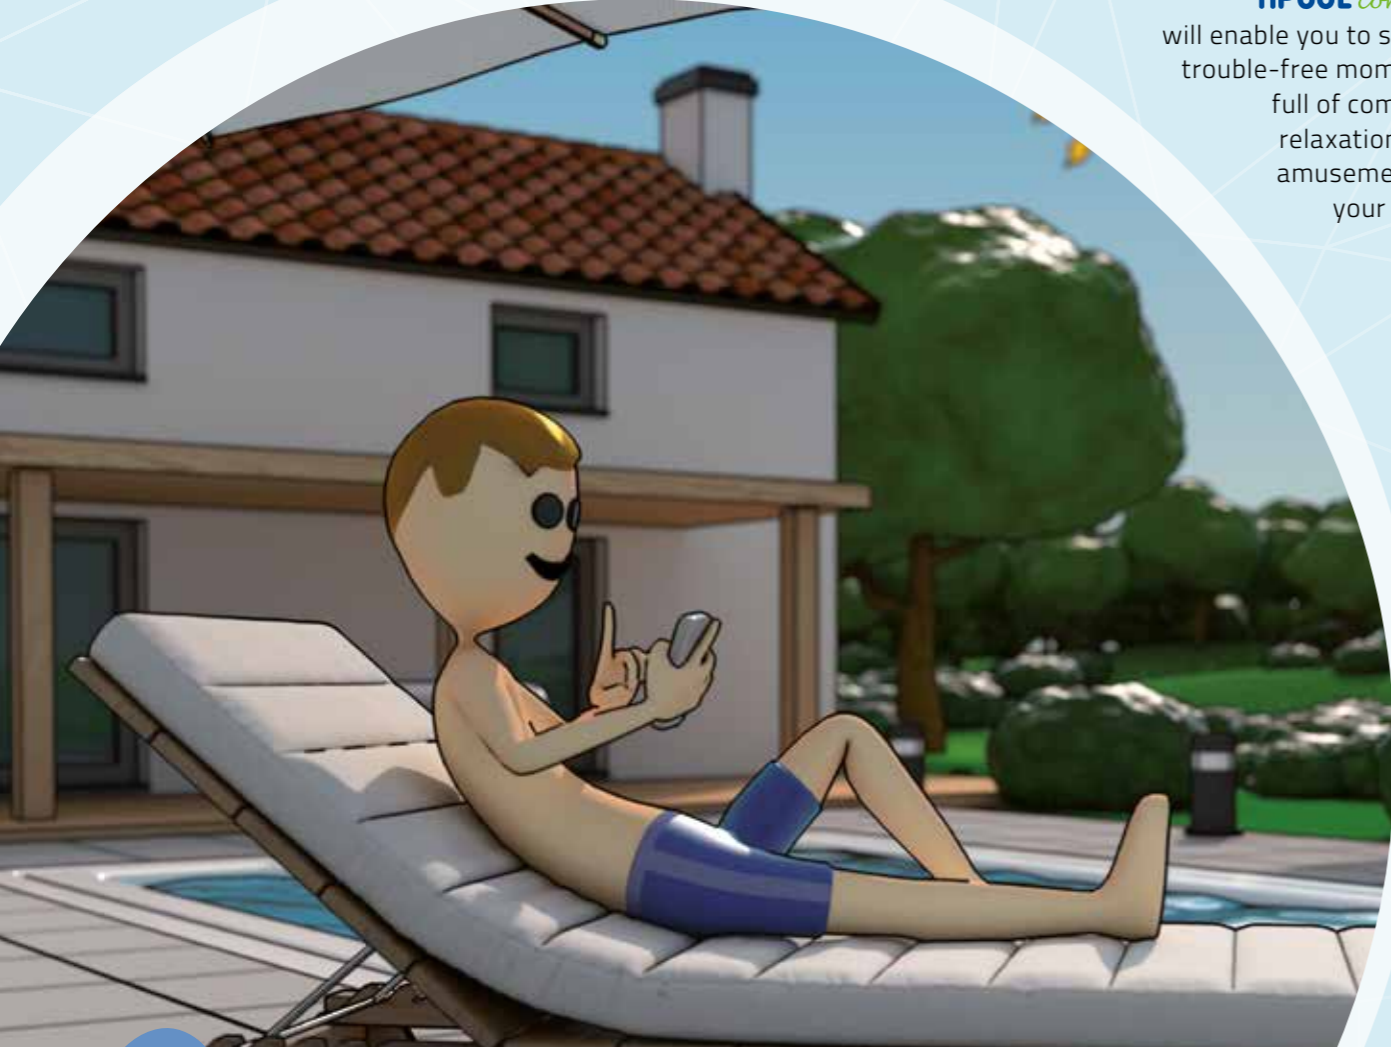

ALL YOU NEED FOR YOUR NIVEKO POOL...

Modern technologies have become a common part of our lives and should make things around us as simple and convenient as possible.

Intelligent control of the nPool control pool was developed by our company for NIVEKO pools.

nPool control will enable you to spend trouble-free moments full of comfort, relaxation and amusement at your pool.

The **nPool control** aims to provide maximum comfort of the pool control and reduce demands on maintenance as well as detailed knowledge of the extensive pool system.

...CONTROLS ALL STANDARD FUNCTIONS OF YOUR POOL

- Fully programmable system enabling connection and control of most of the pool technology components which are available today
- Control via a tablet or phone by means of the Apple and Android application

- Online overview of the pool condition

...GUARDS YOUR POOL

- Safe pool control, crucial functions are secured by a PIN code
- Limitation of operation of attractions
- Automatic information if a problem occurs

...AND MANY MORE FUNCTIONS

- The **nPool control** system is also able to control equipment around your pool, such as external terrace lighting and gridiron, and thus make their use even more pleasant for you.

...GETS YOU CLOSER TO YOUR SWIMMING POOL POOL PARTNER

- Your pool supplier will have a better overview of its condition and will take care of its regular maintenance or service
- If you are absent, it is able to control the system from its office directly according to your demand and wish
- Thus you can easily pass all responsibility and care for your pool on someone else...

DO NOT WORRY UNNECESSARILY AND
ENJOY YOUR PEACEFUL MOMENTS...

CHOOSE YOUR nPool control AND ITS OPTIONS

The nPool control system consists of the basic module "STANDARD" and five expansion modules.

STANDARD MODULE*

- Water temperature measurement with the possibility of setting the required temperature
- Switching off the pool lighting and setting any colour
- Selection of a suitable interval and period of water filtration
- Control of the lamella cover
- Automatic system warning of non-standard behaviour or condition of the pool

ECOSTREAM** MODULE

- Automatic switching of filtration at the time when the lamella cover is closed or the pool is not used

AUTOMATIC LEVEL** MODULE

- Measurement of water level in the buffer tank and its automatic refilling

WATER CARE** MODULE

- Proper automatic system of pool water maintenance with notification of the amount dosed and current or long-term consumption of chemicals
- Possibility of setting pH and chlorine including the safe range
- Automatic information if the values are outside the safe range or the amount of chemicals has reached the minimum value

CLEANING** MODULE

- Provision of automatic filter washing in the preset interval
- Possibility of draining the pool

PLUS** MODULE

- Possibility of extending the number of controlled elements by another one

*The Standard module can further be extended by expanding modules
 ** The expanding modules – can be chosen independent of each other

WHY nPool control?

- Comfortable and almost trouble-free maintenance of your NIVEKO pool
- The nPool control can be configured according to the required pool equipment
- The system is closely connected to your pool supplier, thus providing for its trouble-free service and operation
- Very intuitive control application
- Safe operation is guaranteed to you and the use of your pool will become fun

The logo for nPool control is centered in a dark blue horizontal band. It features the word "nPool" in a white, bold, sans-serif font, with the word "control" in a green, lowercase, cursive font positioned directly below it. The text is set against a light blue, abstract background of overlapping geometric shapes that extends across the entire page.
